SEARCH FOR TALLINN-TYPE INSTALLATION

BRYANSK, USSR

A search was conducted within a 50 nautical mile radius of Bryansk, USSR 53-15N 34-22E for new TALLINN type SAM/AMM activity (See map). This search reveals no installations which can be identified as SAM/AMM activity or related to SAM/AMM activity.

A search was conducted on good to poor quality [] photography as summarized at the end of this report. [] provided the best quality coverage of the entire area. (See Attachment I) While [] was entirely cloud-free, [] had small areas that were cloud-covered. These "gap" areas were observed cloud-free on the remaining []
